Full stack software developer with expertise in front-end and backend-end development along with deployment and CI/CD pipelines.

TECHNICAL SKILLS

- **Frontend** – Next.js, Typescript, Framer Motion
- **Backend** – Node.js, tRPC, BullMQ, APIs Integration, OAuth
- **DevOps** – Docker, AWS, GitHub Actions
- **Database** – MySQL, PostgreSQL, MongoDB

EXPERIENCE

Monto Tech – Software Engineer (Full Stack)

Dec, 2024 - Present

- Building AI powered social media management platform (<https://www.replient.ai>).
- Implemented queueing system for processing comments and messages received on webhooks using BullMQ with Redis.
- Developing integrations with social media platforms Facebook, Instagram, TikTok, LinkedIn, YouTube, and Google Reviews.

Calcom – Open-Source Contribution

- Implemented browser push notifications feature for cal.com, a popular open-source scheduling infrastructure.
- Leveraged Web Push API and Service Workers to deliver real-time updates to users across multiple browsers.
- Enhanced user engagement by providing timely reminders and updates for scheduled events.

PROJECTS

Replient | Social Media Management Tool

Mar, 2025 – Present

- Replient is a comprehensive **social media management** platform that leverages AI to help brands manage interactions across Facebook, Instagram, Tiktok, linkedIn, YouTube, and Google Reviews.
- Implemented queue based comments/DMs processing jobs using **BullMQ**.
- Built a smart visual **automation builder** using React flow and custom backend for running the automations.
- Smart **AI answers** for comments and DMs with **translation** for messages in other languages.

Thunder Mail | Email sending service

Mar, 2024 – May 2024

- Thunder Mail is an email sending service based on Gmail account. Users can link their Gmail accounts to start sending emails to their users using Thunder Mail's **simple API** from that email.
- Created **Node.js SDK** (thundermail) to use the Thunder Mail API easily from any JavaScript project.
- It also integrates **AWS SQS Queue** and **Lambda functions** to handle email sending.

EDUCATION

Manipal University | Bachelor in Computer Applications

Jaipur, Rajasthan | Aug, 2023 - Present

G. D. Goenka School | Secondary Education (XII COM – 98.2%)

Surat, Gujarat | Apr, 2019 – Apr, 2023
